- Salary - ranges from \$15-\$25 per hour

PROGRAM INFORMATION

Registered Behavior Technician Training Program at the T.Byrd Center

The Registered Behavior Technician (RBT) is a paraprofessional certified in behavior analysis. RBTs assist in delivering behavior-analytic services and practice under the direction and supervision of a Board Certified Behavior Analyst (BCBA).

The T.Byrd Center has partnered with Continuum Behavioral Health, a leader in the field of Applied Behavior Analysis therapy, to provide students with the highest quality of instruction. The Registered Behavior Technician Training Program totals 90 hours and is comprised of 50 classroom hours and 40 hours of clinical experience. Continuum Behavioral Health will teach students the knowledge and experience needed to provide care for individuals receiving ABA therapy.

Program includes clear instruction, video models, and interactive application activities creating a comprehensive, interesting, and practical RBT Training experience. There are quizzes at the end of each topic, study tools to review concepts and vocabulary to help with content mastery. It is designed to not only meet the 40-hour training requirement for the RBT® credential but also fully prepare you for entering the field of ABA.

This 90-hour training also includes all RBT® task list items as outlined by the Behavior Analyst Certification Board (BACB). Upon successful completion of the 90 hour program, students will be eligible to take the certification exam. Students also receive a certificate for completion of the 40-hr RBT training.

RBT® CERTIFICATION

Certification Process

Prerequisites for obtaining the RBT certification are:

- Over 18 years of age
- High school diploma or equivalent (via transcript)
- A criminal background check (must be conducted within 45 days of completion of the 4 week training program). You would need to complete a finger-print background check (procedure will be provided). The cost is \$42.83 and is the student's responsibility. This will not be reimbursed.
- 40-hour training (MUST meet the RBT Task List 2.0 requirements) provided by Continuum Behavioral Health
- 2-part Competency Assessment conducted by Continuum Behavioral Health
- Pass the RBT Exam (Note: This exam MUST be taken at one of 400+ Pearson VUE Testing centers). The RBT application fee is \$50.00. Please retain your receipt and submit it for reimbursement. The RBT testing fee paid to Pearson is \$45.00. The \$45.00 is refundable when you provide the center with your test results. T.Byrd Center will only reimburse the testing fee one time. If you fail, you will still be reimbursed; however, it is your responsibility to pay the fee again.
- Visit the BACB's website for more information: <https://www.bacb.com/rbt/?rbt-before-applying#rbtResourceCarousel>

OUR PROMISE

Benefits of RBT Training at the T.Byrd Center

Most RBT training programs are just 40 hours of pre-recorded instruction. While some programs allow interactive assignment completion, feedback is typically automated and general. There is no opportunity for practical application or immediate responses to questions and concerns.

While this meets the minimum 40 hour training requirements, there is no opportunity for clinical or competency assessments, and participants still feel inadequately prepared for employment as an RBT and usually score lower on fidelity assessments and other supervision feedback.

The T.Byrd Center has partnered with Continuum Behavioral Health to elevate the quality of instruction and experience for each student obtaining the RBT certification. By choosing our program, you will receive online and live instruction, article reviews, competency quizzes, practical application, and clinical experience. You will also receive assistance in completing your RBT application and registering for your certification exam. You will have support every step of the way to advancing your career!

Course Materials Provided:

- Training calendar and guide
- Internal site with training library and resources
- Online access to FIT 40-hr RBT Training
- Competency checks and quizzes
- Journal articles
